

# State of Montana Data Center Rates

## FY 2015

### SMDC – Helena

<b>U- Space</b>	\$23.98 per 1 U, per month + 28% for power ( <b>Unavailable</b> )
<b>Rack space</b>	\$659.69 per month (includes charges for power)
<b>Remote Hands</b>	\$90.00 per hour (minimum charge is 30 minutes)
<b>10 GB Connection</b>	\$185.48 per port, per month - includes cabling from meet me room to rack
<b>1 GB Connection</b>	\$30.85 per port, per month - includes cabling from meet me room to rack

State of Montana Data Center - Helena requires SummitNet connectivity or connectivity through an approved carrier. If you have a cooperative purchasing agreement with the Department of Administration's State Procurement office, you may purchase off SITSD's existing contract. This should be facilitated through SITSD to make sure the carrier does not terminate the circuit onto SummitNet. If the termination happens at the SummitNet D-marc, the circuit will be required to be managed and maintained by SummitNet. SummitNet connections are subject to SummitNet connection fees as well as security and policy requirements.

The following carriers are currently established in the Helena Data Center:

- Century Link
- Charter

**All requests are subject to prior approval. Tenancy requires the following items:**

- Service Request - Send to [servicedesk@mt.gov](mailto:servicedesk@mt.gov) to open a ticket
- Background checks on individuals accessing the Data Center
- Equipment Inventory, rack layout plan and power requirements
- Signed lease agreement
- Current rates to be verified at time of service quote and lease agreement
